that will stretch and build you

# Arise KIT LIST

You need the following equipment for an Arise event (one or two things may change).  
Don't forget anything, and don't bring any more than what is listed below.

**Equipment Guidelines:** Your total kit should not weigh more than 12-15kg, not including 1.5 litres of water (that you must also bring and carry with you). At the start of the weekend, you will be given an extra (up to) 5kg which consists of food and extra equipment. So make sure you can carry a 15kg load over extended distances!

Other (unnecessary) kit like cameras, phone, etc. will be held for you so that you're not distracted during the weekend (so best not to even bring them!). Each team is allowed to carry two mobile phones for emergency purposes only. Make sure that these phones are fully charged on arrival.

**Equipment Tip:** Try to borrow items you don't already have; buying kit you don't usually use could be an unnecessary waste of money.
